COMMERCIAL INTELLIGENCE.

FRIDAY EVENING, 4TH JULY, 1879.

CONSOLS in London yesterday were quoted at 98, an advance of ⅛. French Rentes unchanged at 116¾. Enfaced Rupee Paper was higher by ¼ per cent., Fours having advanced from 77½ to 77⅝ and Fours-and-a-half from 88½ to 88¾.

The Bank of England return for the week ending on Wednesday evening is slightly less favourable than the preceding, the proportion of the Reserve to Liabilities having declined from 57⅝ to 55 1-16. The Reserve has decreased by £400,000, Bullion has increased by £200,000, and Discounts are greater by £1,500,000. The latter item is due, in all probability, to the usual movements at the end of the quarter, and that the outside market, so far from being firmer, is actually easier, is evident from the fact of 3 months' Bills being now discountable at 1 per cent. and 6 months' Indian Bank Bills at 1½ per cent., a reduction of ¼ per cent. since Tuesday.

Reuter reports that the English harvest prospects are unfavourable, the crops being partially damaged by excessive rains. So far as Bombay only is concerned this fact is only of secondary importance this season, the export trade in Wheat being quite at a standstill, and likely, to all appearance, to continue so until next crop begins to come in.

We further hear through Reuter that, at a meeting of the creditors of Smith, Fleming & Co., a first and 2nal dividend of 2s. 1d. per lb. was declared. Although the dividend is small, it is, we think, fully as much as was generally anticipated, and the promptitude with which the estate has been wound up is certainly a creditable feature.

In the London General Produce Markets yesterday there was no change of any kind. Linseed continues dull and Rapeseed quiet.

The Manchester Piece Goods Market is steady, and Cotton in Liverpool yesterday also closed steady, the day's sales being estimated at 10,000 bales, of which 600 were Surats. Spot prices, as quoted by Reuter, give an advance of 1-16d. per lb. in G. F. Ginned Dharwar, and a decline of 1-16d. in G. F. Omra, G. F. Dhollera, Good Omra, and Good Dholleras. These alterations, however, are probably due to the adjustments for the weekly circular more than to an actual fall in prices, as private messages confirm the steadier feeling reported. From New York yesterday's telegrams advise no change in prices, which are still quoted at 12 7-16 cents. for ready Mid.-Uplands and 12·37 cents per lb. for September shipment. The receipts at the U. S. ports to date now stand as follows :—

	This week.	Last week.	1878.	1877.
Thursday's Receipts	1,000	nil	300	300
Six days ,,	3,000	4,000	4,900	5,400
Totalsince 1st Sept.	4,409,500	 4,205,100	3,919,500	

BAR SILVER in London yesterday was quoted by Reuter at 52½d., but private advices come 52¾d. per oz., equivalent to 1s. 8 1-32d per Rupee.

EXCHANGE this morning opened firm on the strength of the higher quotations for Silver, and to begin with, one of the Banks named 1s. 8¾d. for demand, but no business was done at the rate, and Calcutta advices coming somewhat quieter, the market settled down to the level of 1s. 8 3-32d. for demand Bank drafts with, if anything, rather more disposition to buy than sell. There is nothing observable to exercise any special effect on the position, but a very general feeling appears to prevail that 1s. 8d. is about a legitimate level for rates to remain at during the slack season. Closing quotations are :—

Bank Bills, on demand	1s. 8 5-32d.	per Re.	
Do. 6 months' sight	1s. 8 1-32d.	,,	
Credits, ,,	1s. 8 5-16 to 3d.	,,	
Documents, 3 ,,	1s. 8⅜ to 7-16d.	,,	
Francs 3 ,,	2·14½	,,	

On Calcutta rates are unaltered at 1-16 per cent. premium for demand and ¼ to ⅜ per cent. discount for 60 days' sight.

GOVERNMENT PAPER opened firm, and a transaction in Fours-and-a-half having taken place yesterday evening at par, sellers asked this price and Rs. 84 for Fours. We cannot hear, however, that any business has been done on this basis, and we call these sellers' rates, buyers' perhaps ¼ per cent. lower.

The SHARE MARKET remains as dull as ever with nothing of any importance doing. Bank Shares are unchanged, as also are Land Companies, and in Press Companies the only movements are an advance of Rs. 20 in Apollo and a decline of Rs. 2½ in Mofussil. Spinning and Weaving Mill shares are again dull and lower, a decline of Rs. 5 being quoted in Dhurrumsey and Manockjee Petit, and Rs. 10 in Madras United, National, and Soonderdas.

COTTON remains dull and practically unchanged. The slightly steadier feeling in Liverpool has had no effect here, as prices are already considerably above the level of Liverpool, while there is always a strong indisposition to ship in deterioration in quality which takes place on the voyage. Receipts yesterday were 99¼ bales, consisting chiefly of Westerns. Nominal quotations are :—

Good Ginned Broach	Rs. 239	per candy f. p.
Good Omra	,, 229	,,
F. G. F. do	,, 224	,,
G. F. do	,, 218	,,
Good Dhollera	,, 228	,,
F. G. F. do	,, 223	,,
G. F. do	,, 218	,,

In SEEDS there is nothing doing, and prices are unchanged.

FREIGHTS are very dull with next to nothing doing. The s. s. Edwin took the berth for Liverpool yesterday, booking about 800 tons at 22s. 6d., and has made some further engagements to-day at the same rate. By sail for Liverpool 20s. is still the nominal quotation. For Havre by steam some business has been done at 27s. 6d., for other ports rates are unchanged and there is very little doing.

PIECE GOODS are practically unchanged. The demand from the bazaar remains as dull as ever, and if anything the tendency of spot prices is somewhat easier, but for future delivery the feeling is pretty firm, and there is no disposition to sell at anything under Manchester prices, which, on the average, are about 3d. per piece above our level.

COALS are quiet, and we have not heard of any fresh business during the day.

SATURDAY, JULY 5, 1879.

WE understand that the prosecutor in the case against Nursey Kessowjee has applied direct to Government praying that the Public Prosecutor may be instructed to take over the case. The Governor's reply has not yet been received; but it is to be hoped that in the interests of justice he will accede to the request that has now been made. When the former case against the mill directors was discharged, a petition was then also forwarded, that the Government solicitor might be directed to conduct an appeal against that decision to the High Court, but under the advice, we understand, of the Advocate General, the petition was refused. The prosecutor in that instance incurred costs amounting to Rs. 6,000, but in that only one mill was concerned. If the present proceedings against Nursey Kessowjee are to go on, and the questions involved in all the four mills are to be gone into, the expenses will come to close on Rs. 30,000; but we believe that the gentleman at whose interests the charge is now being made is not in a position to meet that expenditure; and, in short, unless the matter is taken up by Government, there is every probability that the whole case will fall through. That would be a result nothing short of a public scandal. As we on a former occasion remarked, it is universally felt in Bombay that the case is a proper one for the Public Prosecutor to take up, and it is to be hoped that in this instance the Advocate General will see his way to so advising Government, for it is not too much to say that the credit of British law itself is at stake.

MEN whose hair shows streaks of silver must remember poor Alfred Wigan, the most polished of comedians, in his well-known character Sir Paul Pagoda. Sir Paul was a legacy of the old days of nabobs and pagoda trees. He was the crusty old uncle from India, with his black servant and his hookah; and in the last act "The Bengal Tiger," blesses his niece and gallantly says, "Take her, sir, and remember that I shall give her a fortune fit for my niece." "The Bengal Tiger" is now extinct. The Indian uncle now "runs home" for the Derby Day; and, instead of bringing countless wealth, as a rule asks to be introduced to the family lawyer in order to borrow some money to take him back. The conventional nabob, with a native servant whom he used to beat furiously, has played a considerable part in English literature. Bon Gaultier speaks of his cousin as

Falser than the Bank of Fashion, frailer than a shilling glove,
Puppet to a father's anger, minion to a nabob love.

And she is reproached with having

"Stooped to marry half a heart, and little more that half a liver."

Dickens has drawn the military nabob of olden days. Major Bagstock was a retired officer "who had served in Bengal, and who had arrived at "what is called in polite literature the grand "meridian of life, and was proceeding on his "journey down hill with hardly any throat and "a very rigid pair of jawbones and long-"flapped elephantine, and his eyes and com-"plexion in a state of artificial excitement." Major Bagstock "was mightly proud of awakening an interest in Miss Fox, and tickled his vanity with the fiction that she was a splendid woman who had an eye on him." There are many Bagstocks in the world who tickle their vanity with the fiction that splendid women have their eye on them. If Indians have been caricatured and have had harsh measures dealt out to them by authors, they have the consolation and pride of having such a representative as Thomas Newcome, grandest of men. Every lover of literature is familiar with his old-fashioned courtesy, his modesty, truthfulness, and manly foibles, and his indignation when he found His Highness Rummun Lall the centre of an admiring group of English ladies. Truth is stronger than fiction. Thomas Newcome is not a rare character than Outram, the poor man who refused his share of the prize money because he did not think the cause in which it was won a just one. The lesson taught by the life of James Outram, a Bombay officer, is the grandest lesson taught by the life of man.

Times and fashions change. The nabob of books and traditions is a personage no longer to be found among us. But it is astonishing how long traditional impressions last. The Anglo-Indian is still connected with curry in the British mind, and the only topics of conversation he is supposed to care about are the heat of the climate, mauches, and tigers. He is not regarded as a civilized creature, but a strange species of the genus Englishman. He is not supposed to have a rational acquaintence with European politics and literature, and there is a strong impression in the Philistine mind of the Englishmen who stay at home, that the Anglo-Indian knows nothing about India and has a violent hatred towards all natives. They forget that he is a man who has devoted his life to the somewhat thankless task of governing and improving the race. The Anglo-Indian is no longer drawn as the rich nabob, but he continues to be caricatured in English literature. Travellers enjoy the proverbial hospitality of Anglo-Indians, and repay the debt by finding amusement for themselves and their readers in the exposure of everything faulty. They love to exaggerate every evil they can discover, and they fix on it like a raven pouncing on a bird of carrion. They allow caricature to degenerate into libel. They forget that their hosts were Englishmen, and are as sensitive to satire and as tenacious of their reputations as Englishmen who remain at home. These travellers also forget that they work considerable mischief among the natives by conveying a false impression as to the character and daily lives of those who govern them. Val Prinsep's book, "Imperial India," is a good example of what a book about India ought not to be. Mr. Prinsep's knowledge is strictly superficial; he thinks that "ghats" means mountains. The following is simply a piece of impertinence :—"I say this advisedly, for the Anglo-Indian goes by general report and never troubles himself with artistic impressions, nor does he see the beauties close under his Anglo-Indian nose." The last paragraph for chaste language and humour cannot be surpassed. "Imperial India" proves to us that a man may have a certain amount of artistic skill and be wanting in the great artistic soul; that being able to paint the beautiful does not necessarily mean being able to love the beautiful.

But it is not only from the rapid pens of globe trotters that the Anglo-Indian suffers, but he has often to exclaim, "It is not my enemy that hath done this but my own familiar friend." Works of imagination, written by Anglo-Indians and based upon Anglo-Indian society, as a rule only paint the bright and frivolous side of life out here, and forget the serious aspect. The Chronicles of Dustypore, a work written by a High Court Judge, gives us caricatures instead of pictures of Indian life. If the Chronicles of Dustypore holds up the mirror to Anglo-Indian society, then the tone of Anglo-Indian society must, indeed, be very low. But happily the novel represents only life at Simla. Mr. Desvieux can hardly be regarded as a faithful portrait of the ordinary competitionwallah. His manners are those of a shop-boy, and his hits only sufficient to make him conceited. This is the way a gentleman is supposed to talk to a lady. "Your toes! cried Desvieux with effusion. He wanted to adore them as I do—secret points where all the concentrated poetry of your being gathers. Put out that fairy little satin shoe and let me adore them too." The career of Maud Vernon, the heroine, is, we trust, unlike the career of ordinary girls and married women in India. Maud is married to Jem Sutton, a hero dear to novelists. He was "tall, strong, with beautiful features and eyes as soft and tender as a woman's; indeed a great deal softer than most women's." He had "a sabre cut across his forehead," and he read the 'Idylls of the King' in a "sweet impressive manner." But, in spite of the sabre cut and the Idylls of the King, his wife flirts with the objectionable competitionwalla. The flirtation goes so far that Maud gives Desvieux a "long, sweet, earnest caress, the sudden outburst of gratitude, tenderness, and regret." Sudden outbursts of gratitude and tenderness on the part of married women towards bachelors are dangerous, and liable to lead to prosaic law proceedings. The minor characters in the book are the best. They are not caricatures, but are well sketched and true to life. Every one has met Mr. Fotheringham, chairman of the Salt Board. This gentlemanly man, "lymphatic in temperament, inordinately trained, and the victim of an inveterate habit of enumerating platitudes," who regarded an aspect of "serene, benevolent and consistent infallibility as the first of duties." The Chronicles of Dustypore is a clever book, and narrowly missed being a good novel. There is no absolute reason why a novel about Indian life should be silly. The author of the Battle of Dorking has proved that a good literary craftsman may make an Anglo-Indian novel amusing, without being frivolous, and accurate, without being dull. 'The Dilemma' is far superior to the ordinary run of novels, with their thread-bare plot and worn out lovers' raptures. It has also the great and rare advantage of being pure in treatment and healthy in tone. 'The Dilem

MASSACRES BY THEEBAW.

RANGOON, JULY 4.

Four days after Colonel Browne, the new Resident, arrived at Mandalay, the sons, wives, and daughters of Nyoung, and the Prince's three uncles, were massacred by order of Theebaw. Though they are not of blood royal, yet by this act the Burmese have broken the promise given to the late Mr. Shaw, when, in February last, he threatened to haul down the flag and leave the country. The Government information almost tallies with the above. The impression is that the atrocities continue because Theebaw holds British power in utter contempt. This feeling is increased by the subsidy to the Afghan Amir, whom they laughingly say we conquered and then pay to keep peace. There is also a conviction now amongst our own people that the Government intend taking no notice of the massacres, and that business, which is daily improving, is unaffected by such news. In Mandalay ten lotteries are held almost daily, bringing Theebaw a revenue of 80,000 monthly. These divert attention from his cruelties.

NANDGAON, July 3.—Rainfall heavy and plentiful.

THE Secretary of State has refused compliance with the request of three members of the Madras Civil Service who memorialised his Lordship for permission to retire on pensions proportionate to their actual service, in accordance with the scheme sanctioned by Lord Salisbury's despatch of July, 1876, for the acceleration of promotion among Civil Servants in the North Western Provinces. Lord Cranbrook concurs in the opinion of the Viceroy that in the interests of the public service it is undesirable to re-open the concession of retirement on special terms which has been absolutely closed to all the provinces of the Empire.

THE farewell Order of Brigadier General Tytler to the Second Brigade of the First Division, dated 20th June, is published in another column. The General offers his "warmest thanks to commanding officers, officers, non-commissioned officers, and men of the Brigade for the admirable discipline, coolness under fire, patient endurance in many forced marches by day and night and under discomforts and privations, which all ranks have so cheerfully borne during the seven months the Brigade has served under his command in the Khyber campaign.

WE regret to hear that two officers in the Rifle Brigade—Lieutenant Lord Ossulston and Lieutenant Hornby—died of cholera a few days ago.

GENERAL WATSON was to have left Murree on Monday, for Jhelum, to see the last of the Contingents take rail. All the troops, even the cavalry and infantry, were being transported by rail.

THE Lahore paper hears that Brigadier-General Massy has received orders to take command of a Brigade in Kurrum, in relief of Brigadier-General Forbes, who is about to proceed on furlough.

THE *Civil and Military Gazette* publishes the following telegrams from Kandahar:—Eight cases of cholera have occurred amongst the Kahars in the citadel; two died; no fresh cases: the health of the Europeans is good. Sick 8·86 per cent. The temperature is 93° and 81°. The post from India is interrupted. Private Rogers, of the 60th Regiment, was stabbed in the city, morning of June 28th; he cut down the would-be murderer who is now in hospital. Two Ghazies were arrested on June 29th armed; they were conveying a message calling on 2,000 in the city to rise, as all was ready outside.

THE *Civil and Military Gazette*—It was lately reported that Abdul Rahman Khan, son of the late Afzul Khan, was showing a lively interest in the seditious intrigues which were troubling Balkh, and, it was also thought, Maimene. He seems, however, to have abandoned all thoughts of active interference in the Amir's dominions, for the present. According to the last accounts of him which have reached us, direct from a Central Asiatic source, Abdul Rahman has retired to Samarcand. We are informed that the Russians have granted to him an allowance, there, equal in value to about eight hundred and fifty rupees.

THE Allahabad paper says:—The Maharajah of Kashmir arrived at Srinuggur on the 30th ult. He will have found the city nearly depopulated. We are credibly informed that it now contains scarcely more than 30,000, the ordinary population being ten times that number.

WE (*Pioneer*) believe it is now definitely settled that Colonel Greaves, in accordance with the probability we lately mentioned, will be the next Adjutant-General.

A LETTER from Pankabari in the *Darjeeling News says*:—"To facilitate the traffic across that treacherous river, the Balasun, Lloyd and Co. are constructing a wire tramway at Tirihana Ghat. This spirited enterprise will be a public boon, as passengers, tea, rice, &c., can be crossed over at any time; and from the forward state of the work, it is likely to be open to the public within a month."

A CORRESPONDENT, writing from Nursapatam, on the 25th ultimo, to a Madras paper, gives the following particulars of the Rumpa rebellion:—"Four Companies, of the 17th Regiment M. N. I. from Vizianagram, arrived here yesterday afternoon, under command of Major McDougal. Col. Rammell, of the 29th, is expected here this morning, to take charge of the Brigade. Their destination is still a mystery, but it is rumoured that they go on to Koyyur, whence they start in divisions to meet the party coming from the Rajamundry side. Captain Blaxland and Mr. Lushington have already left Koyyur for Bandamaddy; this is the place where Captain Blaxland and the Paiks were repulsed some time back by the rebels. Information has come in from Koyyur that the village of Pauslapadu near Kistnadaripetta was plundered the other day by the rebels."

FROM the Report of the Director General of Indian Telegraphs for 1877-78, it appears that the increase in inland private telegrams, as in State messages was abnormal, and chiefly due to activity in the grain trade throughout India during the greater portion of the year. The revenue under this head has increased 38·35 per cent. during the last two years, while the corresponding, numerical increase in inland private messages has been no less than 43·28 per cent. The totals of private and State messages for last year are as follows:—

	No.	Value Rs.
State.....	123,834	4,48,206
Private.....	1,046,120	15,85,890
Total...	1,169,954	20,34,097

In foreign State messages there was an increase in number of 345 messages of the value of Rs. 6,960. The director says, "This appears due to a more general use of the wires, and not to any special causes." In foreign private traffic the increase was very marked. The increase was so large as 38·14 per cent. as regards number, and 27·28 as respects value. Whilst on the subject of foreign messages we may note that the Suez route is becoming more popular year by year. In 1876-77 the percentage sent by this route was 60·22; in 1877-78 it was 79·10. In the two years mentioned the percentages for Teheran and Turkey were respectively:—Teheran, 37·57; 17·72; Turkey, 2·21; 3·18. In 1872-73 only 78,094 foreign messages were sent; in 1877-78 the number had arisen to 187,069; that is, had more than doubled in six years. The increase is due to private enterprise and not so much to a larger number of State messages, which, indeed, form an insignificant portion of the whole. Our readers may be interested in noticing how largely newspapers have shared in the increased telegraphing of the period:—

Year.	Reuter No.	Reuter Value.	Other Associations or individuals. No.	Value.
1873-74	1,692	9,603	903	Rs. 1,643
1874-75	1,047	9,291	3,159	8,829
1875-76	1,531	12,642	4,276	11,501
1876-77	1,811	12,580	3,896	10,325
1877-78	2,695	13,600	4,842	26,891

Eleven new offices have been opened during the year and six closed, so that the net gain is only five. The number of offices open on the 31st of March 1878 was 239.

THE *Pioneer* says:—Colonel MacGregor has returned to Simla, and has resumed his duties as Officiating Deputy Quartermaster-General. Colonel Gordon, now in the Kurram Valley, returns at once to Simla, and will officiate as Adjutant-General, when General Lumsden gives up charge, till the arrival of the permanent incumbent.

THE Commander-in-Chief accompanied by Brigadier General Brooke, A. G.; Brigadier General Burrows, Q. M. G.; Lieutenant-Colonel Holberton, A. A. G.; Lieutenant-Colonel Justice, Military Secretary; Captain Spencer, A. D. C.; and Captain Barrow, A. D. C., paid a visit to Kirkee on Thursday morning, and inspected a class of 12 N. C. Os., and men belonging to the various Batteries of Horse and Field Artillery serving in the Bombay Army, and who have completed a course of training under Riding Master E. Stannard, Royal Artillery. The drill commenced at 8 a. m. and lasted about an hour. At its conclusion H. E. expressed to Mr. Stannard his entire satisfaction at the careful training that had been bestowed upon the horses, and at the thorough acquaintance with the system of military riding which had been acquired by the class about to be dismissed.

THE general public hardly realise the amount of money that has been sacrificed by officers dying in the service since the abolition of purchase, says *Truth*. Perhaps some member of Parliament will call for a return. Before the abolition all officers went into action on even terms, so to speak. Now the purchase officer and the post-purchase officer go into action on very different terms. The one may lose his life and some thousands of pounds, the other can lose his life only. Surely it would be only fair to pay the widows or relatives of officers killed in action the price of their commissions. Lord Cardwell once said in the House that no officer should be worse off after the abolition of purchase than he was before. I hardly think that these facts bear his statement out, for not only are purchase officers dying in the service worse off, but their loss is the country's gain. It is surely high time that this should be rectified.

M. DE LESSEPS at least is sanguine as to the success of the contemplated Panama Canal. Speaking in London lately the famous engineer said that when he came to England in 1870, and had conferred upon him the honour of citizenship of London, he was told that if the English had not found the capital for the Suez Canal they would pay the interest by means of the tolls which their ships would pay in passing through. Looking back upon the success which had attended the undertaking he thought that now the English ought to feel a certain amount of confidence in the present enterprise for the formation of a Panama Canal. But this country should not only show their interest by sending their ships through the canal after its completion, but also by now taking shares in the scheme. He had not been supported better than by the English in the maintenance of the traffic of the Suez Canal. They were courageous—he might say audacious—in their maritime enterprise; they had entirely changed the system of navigation by adopting steam instead of sailing vessels, and really paid the interest of the shares of the canal at the present time by contributing 100,000fr. per day in tolls. He was sure that the cutting of the Panama Canal would be finished in eight years, and in September he should invite all the world to subscribe to that enterprise, and he was sure that his call would meet with a general response. It had been said that there was somebody who had more wit than Voltaire—it was everybody; and he would say that there was somebody who had more money than Rothschild or Baring—it was everybody. He was sure that everybody would help his enterprise and subscribe for some shares in his Panama Canal Company, which would open a new road to China, Japan, and the Australasian colonies, and in conjunction with the Suez Canal, furnish a great waterway round the world.

THE Presbyterian Churches of Scotland have brought their annual meetings to a close. All the overtures, reports, appeals, and financial statements have been discussed; and we should not wonder if the year be remembered as marking a distinct stage in the history of the Churches. On several subjects agitation and controversy have been going on for some time, and the hour seems at hand when the fruits must be gathered or the results tested. On questions of doctrine all the Churches have taken a stand. The United Presbyterians have drawn the line so as to exclude Mr. Macrae and his opinions; the Free Church seems resolved to deal sternly with the speculative tendencies of its college professors; and the Established Church is firm in proclaiming its adherence to the standards, and in continuing to refuse any relaxation to hesitating elders. In financial matters the past year was peculiarly trying. With universal depression in trade it was inevitable that some diminution of support should occur, at least in those Churches which depend entirely on voluntary contributions, and whose strength lies in districts which have been much affected by commercial disasters. In the Free Church the debate on Professor Smith's case turned on the question whether the case should be at once transmitted to the Presbytery of Aberdeen or referred to a committee for conference with Professor Smith. The motion for immediate procedure was carried by a bare majority of one vote; but it would be wrong to infer that the minority were all prepared to tolerate the Professor's opinions in the Church. The truth seems rather to be that many of them hoped to obtain from him some concession which would enable them to condone the offence, or to pass it by with a censure or admonition. The libel, however, will now be carried through in the usual form, and there is little doubt that the young and learned professor will be lost to the Free Church. When dealt with judicially he is not likely to modify any of his opinions, and the Assembly cannot retrace its steps. The Free Church now holds all its ministers and professors bound to maintain the doctrine that Deuteronomy is no dramatic adaptation, but a genuine and authentic historical record. There is no positive averment that it was written by Moses, but no officebearer is allowed to call the historical character of the book in question. In the midst, however, of reasonable doctrinal stability and financial success, there is an element that is saddening and mysterious. By their own account the Churches are not elevating the moral character of the country. This year the Free Church is the frankest in its acknowledgments, but last year all the reports were outspoken enough, and no change for the better is said to have occurred since then. A selfish, materialistic spirit is alleged to be abroad. Many people are lapsing from ecclesiastical ordinances; others are nominally connected with the Church, but are lax in their attendance and careless in their convictions; and the agricultural population is described as sinking in large districts into practical heathenism. Is the picture over-coloured, or if not what does it all mean? There is no want of energy and activity throughout the churches, but in the face of such facts the inference is unavoidable that the energy is to some extent misapplied. The methods which are adopted for contending with the evils in question cannot be altogether wise, else they would surely be more effective. It is true that agencies adverse to religion are at work, but the Church in all its branches is bound to take means for counteracting their operations. We do not wish to throw blame on any of the Churches. They are all contributing to the intellectual and moral life of the country, but if extensive moral deterioration prevails, it is impossible to believe that they are doing their best or doing it in the best way. On their own statement of facts and circumstances we may put it to all concerned whether the time is appropriate for self-gratulation, ardent rivalry, or politico-ecclesiastical agitation.

AN OLD OFFENDER.—Gopal Luximon, a notorious character, was yesterday sentenced to eighteen months' rigorous imprisonment by Mr. W. Webb, on a charge of housebreaking.

A BREACH OF THE ABKARI ACT.—A Hindu, named Babajee Balsett, was yesterday fined Rs. 10 by Mr. W. Webb for transporting a quantity of country liquor from one place to another without a permit.

SUSPICIOUS THEFT.—Ruttonjee Burjorjee, a tranship guard in the service of the G. I. P. Railway Company, was yesterday charged before Mr. W. Webb, with having in his possession twenty seers of cardamoms, valued Rs. 25, reasonably suspected of being stolen. The prisoner, it appears, on the evening of the 30th ultimo was seen to hand over the wall of the Byculla railway station a bag containing cardamoms, immediately thereafter he followed suit and was arrested with the article in question in his possession. The case stands adjourned for further hearing to the 10th instant.

THE RECENT FIRES AT POONA.—It is reported that three Brahmins have been arrested by the police on suspicion for being in possession of some ornaments and for which they cannot satisfactorily account. Their depositions were taken on Wednesday last by Mr. E. T. Richardson, the City Magistrate, but what they have stated before that functionary we are not in a position to state, as the inquiry is carried on with great secrecy.—*Poona Observer.*

THIRD CRIMINAL SESSIONS.

SIXTH DAY, FRIDAY, 4TH JULY.

(Before the Hon'ble Sir CHARLES SARGENT.)

THEFT AT TREACHER AND CO.'S.

Antone D'Abreo, a compounder in the employ of Messrs. Treacher and Co., was charged with theft as a servant. The prosecution offered no evidence, and the prisoner was discharged.

VOLUNTARILY CAUSING GRIEVOUS HURT.

Philip Miliano, a Malay, was charged with voluntarily causing grievous hurt to Govind Raghoo, a policeman. On the 16th April last, the policeman, on the complaint of a Mussee who said he was assaulted by the prisoner, was taking the prisoner to his superior officer. They were going along the Mazgaon Dock road, when the prisoner suddenly turned round and struck the policeman with a knife in his left side, inflicting a wound which penetrated an inch into the lungs, as well as two other wounds. Prisoner was arrested by other policemen. The policeman had been a month in hospital, where his life was in danger for some days. The prisoner was found guilty and sentenced to rigorous imprisonment for six months.

"SWEATING" COIN.

Hooka Jadowjee, a boy about ten years of age, was charged with abetting the offence of fraudulently performing on the Empress' coins, two rupees, an operation which diminished the weight of such coins; and Doongersey Hooka was charged with having in his possession two rupees, with respect to which an operation which diminished their weight had been performed. Mr. Fox, instructed by the Public Prosecutor, conducted the prosecution. The prisoners were not defended.

Mr. Fox, in addressing the jury, briefly stated the facts of the case. On the 23rd April last, the second prisoner went to the shop of Shaik Mahomed Shaik Mugdoom, a grocer, and asked for an anna's worth of rice, tendering a rupee. Shaik Mahomed's suspicion was aroused, and on weighing the rupee, he found it two or three grains short. The prisoner thereupon tendered another rupee, which was also weighed and found underweight. Shaik Mahomed therefore seized the prisoner and was taking him to a policeman. They met a policeman in the road and proceeded to a house pointed out by the prisoner, in which, he said, he lived with his father. The house was searched, and the policeman discovered a bottle containing nitric acid and certain greenish powder. Dr. Lyon, Chemical Analyser to Government, would tell the jury that if a rupee was kept standing in nitric acid with a little copper for about ten or fifteen minutes, it would produce the greenish powder and then the rupee would be found underweight. The produce would be nitrate of silver and nitrate of copper. The prisoners were then arrested. The day after the arrest at the Mazgaon Police office the second prisoner performed an experiment on a rupee which was handed to him by a policeman. It was placed in nitric acid, and in about a quarter of an hour the greenish powder was produced, the rupee being several grains short. The offence was one commonly known as sweating coins. The second prisoner was abetted by the first, his father, in whose house he lived.

The jury, after a short consultation, returned into court when the foreman stated that five were for "not guilty" and four for "guilty." His Lordship told them that was not a verdict that he could receive, and that the jury must retire for further consideration. Having retired again the jury returned in a short time with a verdict of not guilty. The two prisoners were discharged.

UTTERING COUNTERFEIT COINS.

Rahimut Ali Kadia Ali was charged with fraudulently delivering to Kessow Dhacoo, a betel-nut seller, a counterfeit half anna coin and with fraudulently being in possession of counterfeit half anna pieces. Mr. Kirkpatrick, instructed by the Public Prosecutor, appeared for the prosecution.

On the 26th April last, the prisoner went to the shop of Kessow at Durgha Devi, and tendering a false half anna piece asked for a piece worth of betel-nut and betel-leaf. Kessow's suspicion was aroused at the appearance of the coin, and he gave it to a bye-stander, who examined it and called a policeman. Prisoner attempted to run away, but was arrested. On his person were found seven other false half anna pieces. The jury found the prisoner guilty, and he was sentenced to rigorous imprisonment for eighteen months.

This was the last case for trial; and the Sessions were dissolved.

EPPS'S COCOA.

(BREAKFAST.)

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well-fortified with pure blood and a properly nourished frame."—See article in the *Civil Service Gazette*.

FOR IMMEDIATELY PRODUCING SEIDLITZ WATER WITHOUT THE SLIGHTEST TROUBLE.

Is prepared from a correct analysis of the celebrated German Spring, the value of which for so many years has been fully recognised by the Medical Profession. From the combination of Saline Salts and Carbonic Acid, action upon the Digestive and Renal Organs is at once effected.

AS A SALINE APERIENT,

It is especially recommended in all cases of

Biliousness, Indigestion, Sickness, Headaches, and other AILMENTS which are generally so prevalent in tropical climates. It is cooling, refreshing, and invigorating, and in cases of FEVERS will be found a most convenient and salutary obrifuge. It has stood the test of

50 YEARS' EXPERIENCE,

and those who have once taken it continue use, from confidence in its medicinal qualities. As all the ingredients are in one bottle, it will be found most

OPINIONS OF THE PRESS.

(*Madras Athenæum.*)

The issue of this Guide for the current month is as complete and well got up as the previous numbers. It contains information of inestimable value to travellers by railway—and, indeed, to all travellers in India. The well executed coloured map of India is a very useful addition to the Guide. The completeness and variety of the contents of this publication reflect the greatest credit on those who had the arduous duty of collecting such correct information.

ILL HEALTH.—Numerous diseases arise or cannot be got rid of by reason of impurity of blood. OLD DOCTOR JACOB TOWNSEND'S SARSAPARILLA has now for nearly half a century been prescribed in all such cases. Its cleansing, tonic, and restorative qualities render it peculiarly efficacious in cases of Biliousness, Disordered Stomach or Liver, Headache, Skin, Blotches, Piles, and ailments arising from a tainted state of the blood or debilitated constitution. To those living in crowded cities or in unhealthy districts its effects are magical. Many remedies for particular diseases fall in consequence of the enfeebled and impure state of the system. Cleanse, strengthen, and purify the system and blood, and maladies which have long proved incurable will vanish or yield to other remedies.

In conjunction with this invaluable Preparation may, with great advantage, be taken the OLD DOCTOR'S SARSAPARILLA PILLS, aperient and alterative, but not purgative. Wholesale Agents Messrs. Ralfgate and Co., for Bengal and Calcutta; Messrs Barry and Co., Vepery, Madras; Messrs. Treacher and Co., Bombay, Byculla, and Poona; or at the Sarsaparilla Depot, 131, Fleet Street, London.

☞ NOTICE.—Fraudulent imitations of old Dr. Jacob Townsend's Sarsaparilla are being sold. The genuine is sold only in Red and Blue Wrappers, the Old Dr's head is the centre, and the British Government stamp affixed.

STEEDMAN'S SOOTHING POWDERS FOR CHILDREN CUTTING TEETH.

CAUTION TO PURCHASERS.

The value of this well known Family Medicine has been largely tested in all parts of the world, and by all grades of society, for upward of FIFTY YEARS. Its well earned extensive sale has induced SPURIOUS IMITATIONS, some of which in OUTWARD APPEARANCE so closely resemble the original as to have deceived many purchasers. The proprietor therefore feels it due to the public to give a special caution against the use of SUCH IMITATIONS.

Purchasers are therefo requested carefully to observe the four following distinctive characteristics, without which none are genuine :—

1st.—In every case the words JOHN STEEDMAN, CHEMIST, WALWORTH, SURREY, are engraved on the Government Stamp affixed to EACH PACKET.

2nd.—Each SINGLE POWDER has directions for the dose, and the words John Steedman, Chemist, Walworth, Surrey, printed thereon.

3rd.—The name Steedman is always spelt with two EE's.

4th.—The manufacture is carried on solely at Walworth, Surrey.

Sold in Packets by all Chemists and Medicine Vendors, are 1s 1½d and 2s 9d each.

ADVERTISING AT RAILWAY STATIONS.

THE Proprietor of the "Bombay Gazette" Press having leased (among other privileges) from the Great Indian Peninsula Railway Company, and the Bombay Baroda and Central India Railway Company, the exclusive right of advertising at all the Railway Stations belonging to these two Companies, is prepared to contract with parties desirous of posting Notices or Advertisements on the lines.

The announcements may be in English or in any of the Native Languages.

The advantages which Railway Stations present as a means of bringing intimations of all kinds before the public have been demonstrated in England by the extensive use which is made by Advertisers, of every station, great and small, along every line in the United Kingdom.

Insurance Companies, Shipping Companies, Hotel-keepers, Merchants, Traders, and others who wish to force their business on the notice of the Public, all alike value the privilege of Railway Station Advertising.

There is no reason why the privilege should not be also specially valuable to Advertisers in India. Looking to the great and increasing number of Native Railway Passengers on the two trunk lines of Western India, native merchants, traders, &c., seeing that they have the privilege of advertising in their own language, would find the publication of their announcement at Railway Stations a decided means of extending their business.

And as nearly ALL TRAVELLERS ARRIVE IN INDIA NOW LAND AT BOMBAY, and proceed by the G. I. P. or B. B. and C. I. Railways to their destinations, placards exhibited at the different stations on those lines are every day becoming more and more valuable as means of bringing the Advertisers' business to the notice of the Public.

Advertisers can select the Stations, on either line, at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed in an extremely moderate scale to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the Public.

Placards, according to the taste of Advertisers, may be Printed at the "Bombay Gazette Press."

CARRE'S IMPROVED ICE-MACHINE.

WITH THE NEW CONGELATOR FOR PRODUCING BLOCK ICE, TO BE HAD ONLY FROM

S. ROSE & CO., BOMBAY.

ICE IN FOUR MINUTES.

CARRE'S PNEUMATIC ICE-MACHINE.
WITH DISTRIBUTOR AND CONGELATOR ATTACHED.

The only Machine suitable for Domestic use; Cheap, Cleanly, and Easy to work; always ready for use, and never gets out of order.

Full particulars of the NEW CONGELATOR can be had on application to S. Rose & Co.

Personal inspection of the new apparatus and its accessories is requested, and full practical instructions for using the Machine will be given to the agents or to the servants of purchasers.

The mode of producing Ice is by means of a Pneumatic Machine; the air in the Decanter or Vase is exhausted by the action of the air-pump, and the moisture arising from rapid evaporation, absorbed by the Sulphuric Acid contained in the Cylinder B, and intense cold in the Decanter or Vase, is the result of reducing the water to Ice.

For use in Up-country Stations, Messes, Hotels, Hospitals, and on board Ship, these Machines will be found invaluable; and their portability renders them most serviceable for Camp use. Within fifteen minutes the Machine can be fitted together, charged with acid, and the water at 85 Deg. Fahrenheit can be reduced to freezing point.

An Illustrated Pamphlet, containing full directions for use accompanies each Machine.

Apparatus for operating on one DECANTER or VASE with NEW CONGELATOR and ACCESSORIES, complete. Net, Cash Rs. 190.

Ditto. ditto. on TWO DECANTERS or VASES with NEW CONGELATOR and ACCESSORIES, complete. Net Cash, Rs. 275.

Messes, Clubs, Traders, &c. supplied at wholesale rates.

Sulphuric Acid, Oils, Wax, India-rubber Rings, Thermometers, Leather Washers, and all the necessary fittings kept in stock.

The above Machines can be seen in working order on the premises of S. ROSE & Co., Bombay.

ELEVATOR

For securely fixing the Bottle Cooler and Vases on to the tap of Ice Machines. Each Rs. 20.

The "Elevator" and "Bottle Cooler" are extras, and are not included in the price of the Machine.

SPECIAL NOTICE.
BOTTLE COOLER.

S. ROSE & Co.'s Apparatus for cooling Wines or Beer with the aid of the Pneumatic ice Machine, and without contact of the Ice with the wines, is an entirely new adaptation. Each Rs. 16.

CARRE'S IMPROVED (NEW MODEL) AMMONIACAL ICE-MACHINES

FOR MAKING SOLID ICE.

THE NEWLY IMPROVED ICE-MAKING MACHINE.

The Patentees have introduced such improvements in the solidity of the Apparatus, that it may now be pronounced perfect in every respect. The Boiler is now made in solid Galvanised iron, and for all practical purposes is indestructible.

The only expense incurred in such operation is about half an anna for fuel, wood Charcoal being preferable to anything. The time occupied in producing four pounds of Ice is from four to five and a half hours.

Small Size to make about 2 lbs. of Ice at each operation.....Rs. 175 0

N. B.—Full Instructions are given with each Apparatus.

ICE BOXES AND REFRIGERATORS.

Fitted with 3 shelves and water Cistern Galvanised iron bucket for waste, with tap.....Rs. 140 0

THE ARCTIC REFRIGERATOR.

BILLIARD TABLES.

THE undoubted and established superiority of C. L. & Co.'s Billiard Tables is amply proved by the constant and increasing demand for them, showing that they are really the only tables now appreciated in India. This success is due to the steadfast efforts C. L. & Co. have always exerted to supply their constituents with really trustworthy and reliable articles at as moderate a price as is compatible with good workmanship and material. The generous and liberal support extended to C. L. & Co. for upwards of half a century, is sufficient proof that their endeavours to render satisfaction have been appreciated by a critical and discerning public.

While the superiority of C. L. & Co.'s Billiard Tables has been universally admitted in India, yet the difficulties and risks of transport have hitherto prevented their friends in Bombay from largely availing themselves of the undoubted advantages offered by C. L. & Co.

Now, however, C. L. & Co. beg to intimate to their patrons in the Western Presidency, that they have made arrangements which will enable them to offer their Billiard Tables at the same prices in Bombay as in Calcutta. A Branch Agency, under the management of MESSRS. SOUNDY & Co., has been established at No. 22, Rampart Row, where Billiard Tables of C. Lazarus & Co.'s manufacture are arranged for sale; and while thanking their constituents for the patronage hitherto extended to their Firm, C. L. & Co. venture to express a hope that, with the increased facilities now offered, their manufactures will be as well known in Bombay as they are already in other parts of India.

BILLIARD CUSHIONS.

C. Lazarus & Co. always keep on hand a large stock of their new and improved COMBINATION EXPRESS Billiard Cushions which can be fitted to any table, the exact length and breadth of the slate-bed being the only information required.

Old Billiard Cushions, if the woodwork is in good condition, can be renewed on the new COMBINATION EXPRESS principle, thereby making an old table as good as new.

IMPORTANT NOTICE.

C. Lazarus & Co. guarantee the SAFE ARRIVAL of their Billiard Tables at any Station in India. Should any breakage occur in transit, C. L. & Co. agree to make good the loss without further charge.

BILLIARD LAMPS.

The six-light telescopic lamp, on the duplex principle, to burn kerosine oil, as adapted by C. L. & Co., is the best Billiard lamp ever introduced.

C. L. & Co. have always on hand a large assortment of Billiard, Pool and Pyramid Balls, in Ivory or "Patent Celluloid," Billiard Cloth, of the finest quality only, Cues, Tips, Chalks, Cement and every requisite for the Billiard Room.
